

OWFR is pleased to share that the next call for Interprofessional Primary Care Team (IPCT) proposals will open **September 2026** as part of the province's \$3.4 billion plan to connect every person in the province to primary care by 2029.

Sylvia Jones, Deputy Premier and Minister of Health, announced last week that the Ontario government is connecting 600,000 more people to a family doctor or primary care provider by launching the next call for proposals in September 2026, to create or expand approximately 78 primary care teams.

This new \$250 million investment is part of the government's \$3.4 billion Primary Care Action Plan and brings the province one step closer to connecting everyone in Ontario to primary care by 2029.

OHT partners will be eligible to apply for funding through this next call for proposals, and OWFR was informed that more information will be provided to us in September.

We set up an [IPCT Updates](#) page on our website, and ask that partners interested in receiving updates about IPCT Round 3 join our mailing list by filling out the form at the bottom of the page.

We look forward to supporting our partners who are interested in submitting proposals!

Please reach out to Nadia Prescott, by emailing nprescott@owfr.ca, if you have any questions about the upcoming call for IPCT proposals.
